

30 lb force feedback from a tamper that looks and feels like an ordinary espresso tamper. with the espro tamper, variation in tamping force no longer affects the quality of the barista's shots.

we took the guesswork out of pulling a shot of espresso

available in flat bases (53 and 58 mm) and convex bases (49, 51, 53, 57 and 58 mm)

what our customers say:

"This is my third espresso tamper, and by far, my favorite! It is the perfect combination of form and function."

"I pulled my personal best shot (up until then) on my very first tamp with the Espro."

"What I really enjoy, is the feel of the Espro in my hand. It just fits so well! I also like the subtle, but very satisfying, click when the proper pressure has been applied."

award winning espresso

- used by David Makin to win the 2008 Australian Barista Championships, and place second in the World Barista Championships in Copenhagen
- 2006 coffeegEEK editors' choice award winner
